Question 01

You are assigned to develop a web site for a travel agency.

- You can use Html, CSS, JavaScript and Bootstrap framework.
- Web site should be mobile/tab responsive.
- Use given Layout(UI) and images.
- Navigation Bar Item should rediects to seperate html pages.
 - Create seperate html pages for navigation bar items.
(Ex : When User Clicks 'ABOUT' it should opens about.html in new tab)
- No need to add content to these pages.

Create a new folder and rename it with 'Your-reg-no_ Name'. Add your Answers into this folder.

Ex : IT_WEB_21_XX_XXX_YOUR NAME

Upload Your answers into the correct folder which is in the shared drive.
